ISSUED BY

SPECIAL INSTRUCTIONS

The accounting Department numbers assigned to the various stations named in this publication should be used for all Accounting Department purposes, such as - waybills forwarded and received, corrections thereto, and for all reports and correspondence in connection with the business of the Accounting Department.

Where different numbers are assigned to the same station, the number to be used is that noted in the numerical list for the particular class of business, freight or passenger.

Two columns are used for station numbers in the geographical or numerical list - the first is for Traffic Department numbers and the second for Accounting Department numbers.

The numbers shown in the first column under "Traffic Department" are the station numbers shown in Lelands Official List of Open and Prepay Stations which are generally used in tariffs and division sheets and are shown here for quick reference purposes.
